PROFESSIONAL SUMMARY

Software Developer with hands-on experience building scalable and responsive web applications using JavaScript, TypeScript, React.js, Next.js, Node.js, and Express.js. Experienced in RESTful API integration, database-driven applications, real-time communication, reusable software components, and performance optimization. Strong understanding of software development fundamentals, OOP, data structures, databases, and Git. Currently pursuing an MCA in Software Engineering and seeking opportunities in software development.

TECHNICAL SKILLS

Languages & Core:	Java, JavaScript, TypeScript, Python, OOP, Data Structures & Algorithms, Asynchronous Programming
Backend & Databases:	Node.js, Express.js, Django, RESTful APIs, WebSockets, Socket.IO, MySQL, PostgreSQL, MongoDB, SQL
Frontend Development:	React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS
Tools & Platforms:	Git, GitHub, Monaco Editor, Figma, Vercel, Render, OpenCV, scikit-learn

PROFESSIONAL EXPERIENCE

Software Development Intern | Rablo.in

Feb 2026 – May 2026

- Developed and optimized features for a gym management web application using Next.js, React.js, and TypeScript, reducing page load times by 30% through dynamic route splitting.
- Built an attendance monitoring module with analytics dashboards, improving operational efficiency by 25%.
- Translated high-fidelity Figma wireframes and product requirements into responsive, maintainable React.js components.
- Created reusable UI components and custom React hooks, accelerating feature development cycles by 40%.
- Integrated application functionality with RESTful backend APIs and resolved loading/routing bottlenecks.

PROJECTS

Taskly – Full-Stack Task Management Application

[Live Demo](#)

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs

- Designed and built a full-stack task manager featuring persistent MongoDB storage and optimized RESTful APIs.
- Implemented real-time collaboration functionality and improved data retrieval efficiency by 15% via optimized async fetching.
- Developed responsive and reusable components to enhance application maintainability.

Real-Time Collaborative Code Editor

[Live Demo](#)

Technologies: JavaScript, React.js, Node.js, Express.js, Socket.IO, Monaco Editor

- Developed a multi-file real-time code editor featuring syntax-aware editing powered by Monaco Editor.
- Built event-driven real-time synchronization, live typing indicators, and integrated chat using Socket.IO and Express.js.

EDUCATION

MCA in Software Engineering Amity University Online	Currently Pursuing
B.Sc. in Biotechnology Chaudhary Charan Singh University, Meerut	Completed

CERTIFICATIONS

Certification in Data Science & Business Analytics | Techstack Academy, Delhi
